ACTION TAKEN REPORT

2022-23

1. Course on Python and Tableau was planned and initiated to meet the industry requirements.
2. To satisfy industry requirements, more certificate courses on contemporary ideas such as Website management and Search Engine Optimization were implemented.
3. Additional Certificate Courses and Add-on Programs for data management and analysis were held to improve various value-added abilities.
4. After the pandemic circumstances to the normal life, academic changeover was a success.
5. Consultancy, research, and training Cell was established to provide students with practical experience.
