### **Report on the Challenges Faced by Girls Living Away from Home: A Survey**

A group of 6 students from HNIMR conducted a survey on the Challenges Faced by Girls Living Away from Home in collaboration with BKWSRC. The survey aimed to identify and address the psychological and behavioural impacts of life of students who live away from their home, the influence of the multicultural peer group and hostel life as well as the impacts of hostel life. The students visited nearby areas to gather data on issue.

They interviewed the female students staying away from home in Pune to gain a comprehensive understanding of the challenges. The survey findings were compiled into a detailed report that highlighted the key issues and proposed solutions.

The report was shared with BKWSRC and local government authorities to facilitate the implementation of necessary interventions. HNIMR's involvement in this social awareness initiative demonstrates its commitment to social responsibility and its efforts to bridge the gap between academia and community development.
