Report on A Study on Challenges Faced by the LGBTQ Community

A group of 6 students from HNIMR conducted a survey on a Study on Challenges Faced by the LGBTQ Community in collaboration with BKWSRC. The survey aimed to identify and address LGBTQ community concerns in the local area. The students visited nearby areas to gather data on issue.

They interviewed general public and LGBTQ community personnel to gain a comprehensive understanding of the challenges. The survey findings were compiled into a detailed report that highlighted the key issues and proposed solutions.

The report was shared with BKWSRC and local government authorities to facilitate the implementation of necessary interventions. HNIMR's involvement in this social awareness initiative demonstrates its commitment to social responsibility and its efforts to bridge the gap between academia and community development.
