**Report on Awareness, Acceptability and Feasibility of Menstrual Cups Among Girls and
Women in India**

A group of 6 students from HNIMR conducted an Awareness, Acceptability and Feasibility of Menstrual Cups Among Girls and Women in India in collaboration with BKWSRC. The survey aimed to identify and address study related issues. The students visited nearby areas to gather data on issue.

They interviewed students and females to gain a comprehensive understanding of the challenges. The survey findings were compiled into a detailed report that highlighted the key issues and proposed solutions.

The report was shared with BKWSRC and college authorities. HNIMR's involvement in this social awareness initiative demonstrates its commitment to social responsibility and its efforts to bridge the gap between academia and community development.
