Report on the Impact of Lockdowns on Mess Services

A group of 6 students from HNIMR conducted a survey on the Impact of Lockdowns on Mess Services in collaboration with BKWSRC. The survey aimed to identify and address the impact of lockdown, the difference in income before and after lockdown and the difficulties faced by them. The students visited nearby areas to gather data on issue.

They interviewed the Mess owners within 1 kilometre of HNIMR College in Pune to gain a comprehensive understanding of the challenges. The survey findings were compiled into a detailed report that highlighted the key issues and proposed solutions.

The report was shared with BKWSRC and college authorities to facilitate the implementation of necessary interventions. HNIMR's involvement in this social awareness initiative demonstrates its commitment to social responsibility and its efforts to bridge the gap between academia and community development.
